THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-35, 41, 53-57 and 59-69 are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claims 1, 11, 13, 20, 33, 41 and 59: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a planar light circuit transceiver device for separating optical signals at a first and second different wavelength from one another from a single input signal source, a planar light circuit having an internal waveguide structure adapted to direct optical signals from a single input signal source, a wavelength selective filter positioned external to the circuit for mirror configured to pass a band of signals centered at the first wavelength and to reflect a band of signals centered at the second wavelength and a first and second signal detector positioned such that the first detector detects the band of signals centered at the first wavelength and the second detector detects the band of signal centered at the second wavelength, in combination with the rest of the claimed limitations.

With regard to claims 3-10, 12, 14-19, 21-32, 34, 35, 53-57 and 60-69: These claims are allowable over the prior art of record because they depend from allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2883

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
